WITHOUT HOPE OR SYSTEM.

Our people are as wanting in hope as our Governor is in system and plan for conducting the government.

The day, the hour, for the meeting of the Legislature is almost here, no tax payer looks with joy or hope at the coming event, on the contrary they tremble to think what is to come with the coming of the Legislature. The people can't rely upon the Governor, his duties as a sworn secret Leaguer, form an impenetrable barrier, an impregnable rampart, against the proper discharge of his duties as the Chief Executive of a free people. They can't rely upon him, for he has always betrayed and deceived them. The people can't rely upon the Legislature, for that would be to rely upon the source that ruined them. No man can rely upon them unless it be Littlefield, Judge Alden, Judge Tourgee, the Deep River Manufacturing Company, and the Ring. The people can't rely upon the Judiciary; after a jury has twice convicted of larceny, they will set aside the verdict.

The Judges talk out of doors about matters which are before them for adjudication. Even the Supreme Court are guilty of this impropriety. That Court with propriety refused to give the Legislature an opinion as to the constitutionality of the stay law, because it was not before them in the regular course of the law.

But when the University R. R. was before them the opinion of the Court was said to be made up. Suddenly the case was re-opened for argument, and other Roads not before the Court in the "regular course of law," were invited to a hearing before the Court. If these Roads ever had a hearing before the Court, we are not advised of it, but they are decided to be unconstitutional before they are properly and judicially before the Court.

It is said that the largest fees ever paid to Attorneys in North Carolina were paid to get a rehearing in the case of the University Railroad. It is said some of the Judges were talked to off of the Bench when the University Railroad was before the Court.

One report is, that a Judge after the rehearing of the University Railroad, had $100,000 in North Carolina bonds in New York; another report is he had only 50,000 dollars. We apologized for his having the Bonds by saying, that the Judge owned a cotton plantation before the war—and there was nothing in the new constitution against a Judge's raising cotton or holding State Bonds. Is it to be wondered at that ours are a people without hope.

The sword, and the Leagues have through carpet-bag invaders, conspired against and silenced both the constitution and the law. Heaton, Leflin, Estes, Tourgee, Abbott, French, Brawer, Martlin, Menninger, Ashley, carpet-bagger one, carpet-baggers all, think to make the people more malleable by more blows. They think with a carpet-bag Adjutant General, who is also chief of detective forces, they will keep the people in reverential silence under their continued insolence, inveterate hostility, and cry of treason, over a prostrate people from whom they have heard nothing but wailing and lamentation.

A sentiment of vigor cannot be uttered by a native, but these insolent carpet-bag invaders cry out, treason! treason! They overawe you into silence, while Littlefield walks your streets with 7,000,000 of bonds in his pocket to corrupt the people's Legislature with the people's own money, after a Grand Jury of the people have presented him for efforts to bribe the Legislature with whiskey and money. These carpet-bag invaders keep your post offices closed—natives go thirty and sometimes over fifty miles to the post offices.

We have relied long enough upon the weapons of female weakness, helpless infancy and doting decrepitude. No more wailings, no more lamentations; they fall on the ear of the carpet bag invader as the bleating of the lamb falls upon the ear of the butcher.

"The SENTINEL advocates whipping colored men." This is the opening sentence of a paragraph in the *Standard* of Saturday morning. The most expressive word to characterize the assertion is spelled with three letters. The SENTINEL simply advocates such punishment of *rogues* as would deter them from the commission of crime, and did not make any distinction on account of "race, color, or previous condition." Indeed we would by no means exclude white rogues from the benefit of the whipping post, whether they steal from the State or from individuals; whether their acts are politely termed "defaulting," or "embezzling," or Penitentiary bond swindling, or bribing the Legislature with whiskey, whether the same be done in North Carolina or Florida; all are crimes properly coming under the appropriate appellation of stealing, and should, in our opinion, be expiated by the discipline of the old fashioned rogue horror of the whipping post.

The *Standard* seems to fear such a turn of public sentiment, hence, in holy horror, (and secret dread) turns up the whites of its eyes at every allusion to the subject.

"HIGHT OF FOLLY AND FRAGMENT OF FOOLISHNESS."

Willy Gilbert, as humble but well known character in Orange, when he heard of the lease of the North Carolina Railroad, denounced it as the "hight of folly and the fragment of foolishness." When the chairman adjourned the meeting, we discovered, on the desks of the Senate Chamber, large piles of printed matter that lay unfolded and unread; our curiosty was excited and we picked it up, and lo! it was the lease, accompanied by Major Smith's letter to the Stockholders, informing them of the lease, that the contract had been entered into with the Raleigh and Gaston Road. The President of the North Carolina Road had actually taken his leave and delivered his valedictory to the Stockholders. After informing the Stockholders of the "contract entered into with the Raleigh and Gaston Road he says, "I have worked for the Road and done the best I could with it since it has been committed to my care, and will leave it with the belief that I have done my whole duty to promote the interest of its Stockholders."

The President and Directors of the road did not appear to realize the extent of the authority they had arrogated to themselves in the gross impropriety of their conduct, until Frank Caldwell of Guilford opened on them. If Littlefield and northern money has left an honest man among us, it is Frank Caldwell. Frank opened on the lease after this wise.

Mr. Chairman, what would be thought of my overseer who, left in charge of the plantation, without consulting me, would sell absolutely or for twenty years my plantation, horses, ploughs, hoes, brier scythes and every implement I had put in his hands for the successful operation and running of the farm.

This is exactly the treatment the Stockholders have received from their President and Directors, who are but their overseers to run the Road and not to sell or to lease. Here the chairman made a point of order upon Mr. Caldwell, who was cut short in his speech, but he had said enough; the overseer, Major Smith, hung his head, and as soon as he could get the floor, moved to postpone the consideration of the lease until next July when the Stockholders hold their annual meeting.

There was never before such unanimity among men against a measure. There were some who have been slow to believe the Governor the mainspring of the Ring; the Governor's position on the lease convinced many of his complicity with the Ring.

First his sanction of it, then his declaration to leave it with the Stockholders; and third, his instructions to Mr. Badger, the State's proxy to vote against it.

We should allow the lease to lie in its grave where the Stockholders have laid it; but it "is not dead, it only sleepeth."

There is money in the lease, and Dr. Hawkins and Governor Holden can make it. The lease will be revived in the shape of a sale of the Road. The Governor will either recommend it or be silent while it is accomplished, as he was about the Penitentiary transaction; as he was about the sale of the North Carolina Railroad bonds at 65; as he was about the sale of the swamp lands in Hyde to carpet bag Bibles. We have no proof that the Governor will do it, but we honestly believe that he can get five times as much as his friend, General Littlefield, got for the appropriation of $2,000,000 for the Chatham Road, if he will recommend a sale or lease of the Road and give his influence in that direction.

It is said Bismarck has lost much of his influence in German politics. Should this assertion prove true, says the Herald, we fear that King William of Prussia is becoming indifferent to the glory of Sadowa, and that the Pope has overlaughed the Great North German Premier in the matter of that new Berlin carpet for the Vatican, and that Napoleon knew all about it, which is, perhaps, the worst of all.

THE NATIONAL CAPITAL.—Hon. Garrett Davis has written a long letter to Governor Stevenson, of Kentucky, giving his views concerning a removal of the national capital. He opposes a removal, and asks: "Why should not Washington city run the parallel of Rome in the duration and splendor of metropolitan history."

THE TROUBLES IN NORTH CAROLINA.

During the past summer and up to a recent period, Orange, Chatham, Lenoir and Jones counties, North Carolina, were the scenes of many lawless and bloody acts.—The radical Loyal Leagues and an organization popularly called the Ku Klux Klan, (the actual existence of which is however, denied,) were the high contending parties. We have carefully read many accounts of these disgraceful affairs in North Carolina papers, and the impression left on our mind is this: that negroes belonging to the Loyal Leagues were much given to murder, rape, robbery and arson, and that a large body of whites was formed to punish their crimes by high-handed measures in the absence of any competent impartial tribunal. Vigilance committees and Lynch law usurped the place of courts and statutes.—This was deplorable, and we do not propose to excuse or extenuate it. At the same time it must be remembered that there are few communities that will not throw themselves back on the first law of nature when other means of protection fail. The North Carolina disturbances came near being fanned into a civil war by the rash and reckless interference of Governor Holden. That official issued a proclamation and initiated acts clearly indicating his sympathy with the blacks and the Loyal Leagues as against the whites and the "Ku Klux Klan," when it was his duty to have preserved the nice balance of impartiality between them—such as the actual facts of the case required him to do. He caused to be enrolled, it is said, three companies of black Loyal Leaguers and one of whites of the same organization, and intended to arm and send them into the troubled counties to restore peace! This was a great mistake and meditated wrong; and, had the whole plan been carried out, would have led, undoubtedly, to sanguinary conflicts, in which the whites, as whites, would have massed themselves, with but few exceptions, for that war of races which has thus far happily been averted. But, fortunately, Governor Holden has receded from the extreme step which he was about to take, and the danger is postponed. In the meantime we are glad to record that the outrages by the blacks in the counties mentioned have nearly ceased, and the whites have suspended the operations of their vigilance committees. The blacks seem instinctly to have taken the alarm at the Governor's protected interference, and to have foreseen that the presence of black companies of soldiers among them would be no actual protection, but a source of further and more aggravated difficulty. We do not withhold from the Governor credit for abandoning his purpose of attempting to array black troops against his white fellow-citizens, for it is probable that he has been egged on to such an attempt by Northern Radicals, whom nothing would more delight than to start a conflict of races in the South, in order that better pretexts might be afforded for more meddling with her local governments. Perhaps he is even now waiting for the words of advice from his Radical friends in the North before launching his black battalions on their mission of blood. Should the outbreaks recur nothing would be easier than for the Governor to quiet them if he really wishes to. He has but to go personally into the disturbed counties and appeal to citizens of all classes and colors to be calm, promising them that, so far as his power extends, they shall have justice all round. The whites, if the signs are to be believed, only require some such assurances, and to see that they are not frightened by corrupt judges and packed juries, in order to be kept peaceable and quiet. If it is actually necessary to form a special militia and put it on duty there the Governor could make it up from the most respectable citizens of all parties, property holders and others deeply interested in preserving order. But, in doing this, he must sink the politician and appear as the Governor of the whole State, sincerely anxious to do equal justice by all of the citizens, irrespective of color and old sympathies for or against the rebellion. We have closely watched the conduct of the whites, or ex-rebels, in North Carolina and other southern States, since the war, and can certify that there is not a better disposed, more orderly or manageable set of men on the face of the earth, so long as they are treated with something like justice and fairness.

THE OBSEQUIES OF MR. PEABODY.—By order of the Queen of Great Britain, the funeral obsequies of the late George Peabody, so long an American banker in the city of London, will be solemnized in Westminster Abbey, that spot where reposes all that is worthiest of British dust. This is a well merited honor, hitherto bestowed only upon distinguished subjects—those who have had marked career in statesmanship or arms, or have achieved renown in arts or letters. It is a tribute indicating highest appreciation by ruler and people of the beneficent deeds of the deceased, one of which was his great practical provision for homes for the poor of London.—It was very fitting, too, that the corporate authorities of Baltimore—a city which also was honored with Mr. Peabody's beneficence—should have named this day, in unison with the obsequies on the other side of the Atlantic, for observances on the part of this community in recognition of so mournful an occasion. Between the hours of 12 and 2 o'clock P. M. to day the bells of the churches of the city and of the fire department will ring out their sad monotone expressive of the honoring sorrow of all in the death of such a man while throughout the day the request of the city councils that flags be displayed at half-mast will doubtless be universally complied with. While the ashes of our venerated countryman, the fame of whose benefactions has reached all lands, are to be thus honored in the porches of the ancient abbey of England, yet it is known that they are to find their final resting-place in the soil of his native land. In the suburbs of the quiet Massachusetts village where he was born a plain granite shaft will mark his tomb.—*Baltimore Sun Nov.* 12.

ADVICES FROM TAHITI.—San *Francisco, Nov.* 9.—Advices have been received from Tahiti to Oct. 16. The French gunboat Deutre Castorenx and the ship Nation's Hope had arrived from Sydney. The Tahiti Cotton Company, about six months ago, sent the bark Margaret Condor, Capt. Blackett, to the Gilbert Islands for a cargo of coolies.

The Captain succeeded in securing about three hundred, and during the return voyage they mutined, and killed the Captain and two officers, horribly mutilating their bodies. The mate escaped to the hold.—There he placed a keg of powder under the main hatch, and having arranged a fuse, called the coolies, when the savages crowded around the hatchway. The fuse was then fired, killing nearly all on board. The rest jumped overboard or fell victims to the mate and the remaining men. The vessel was brought safely to Tahiti.

THE GRANDEST HOTEL IN AMERICA.

A Splendid New Edifice on Broadway—Its Architecture—How it will be Furnished—Cost, $1,500,000.

Few people who pass along Broadway are aware that on that bustling thoroughfare, between Bleecker and Amity streets, there is in course of erection, on the site of the old Lafarge House, what is destined, when completed, to be the largest hotel on the Western continent, and equalled by one only in Europe, the Grand Hotel at Paris.

After the conflagration that destroyed the Winter Garden Theatre in April, 1867, the Lafarge Hotel remained untenanted, and was put up at public auction during the month of March last by the heirs of the estate, and the building and grounds sold to E. S. Higgins, Esq., who gave $1,000,000 for his purchase. This gentleman conceived the idea of erecting the largest hotel in the country, and, when completed, it will without a doubt come up to his calculations. The building is to be eight stories in height, both on the Mercer street and Broadway sides, surmounted with three gothic towers, from which a magnificent view of the city and surrounding country may be obtained.

There will be 600 rooms—300 of which will be devided up into parlors. This will be 200 more rooms than either the St. Nicholas, Fifth Avenue, or Metropolitan hotels can boast of, and surpasses even the celebrated Lindell Hotel, destroyed by fire some three years ago, at St. Louis Mo.

The *cuisine* and dining apartments are large and spacious, the largest dining room being 175 feet in length by 75 feet in width, with a capacity for accommodating 700 guests at one time. The item of furniture and upholstery is amazing, they requiring an expenditure of *four hundred thousand dollars* alone. The carpeting required to cover the vast number of rooms and halls in this monster concern is sufficient to cover *seven acres*, all of which will be of the finest velvet and Brussels, ordered expressly from Paris. The walls of the old hotel, fronting on Broadway, will remain as they are, with the exception of the entrance, which will be greatly enlarged and improved, the office being at the farther end of the rotunda upon entering. The structure, which will bear the name of the Southern Hotel, will be completed by next June, but will not be opened until August. The whole affair will cost sixteen hundred thousand dollars.—*N. N. World.*

TRANSFUSION OF BLOOD.—The Philadelphia *Ledger* relates that this operation which consists in the actual transfer of the blood of one living body into the veins of another, has been recently performed in the Pennsylvania Hospital, under the following circumstances:

"A young man in the upper part of the city was wounded on the inner surface of the upper lip, by tripping and falling on the fragments of a pitcher which he had been carrying in his hand. The wound continued to bleed for ten days, after which time the patient was sent to the surgical wards of the hospital, which were, at the time, under the charge of Dr. T. G. Morton. Several remedies were then applied, and the arteries supplying the face were tied, but without success in controlling the flow of blood. Recourse was next had to cutting down to the common carotid or great artery of the neck, and applying a ligature, so as to obstruct entirely the course of the blood in it. This was done on the 18th of October last. The oozing of blood still continued, but in lessened quantity.

"On the following day, or the 19th, the patient was in such a state of extreme exhaustion from the long-continued hemorrhage that his death seemed to be imminent, and, as a last resource, Dr. Morton resolved to try the effect of transfusion.—We shall not pretend to describe the apparatus used on the occassion, or the details of the operation. Let it suffice for us to say that two medical students bared their arms and gave the blood required for the occasion. Five ounces and a half of their blood were infused into the vein of each arm of the patient, the marked good effects of which were evinced in five minutes by a rallying of the pulse and otherwise beginning reaction. There was no further discharge of blood from the original wound, and in ten days the patient was able to walk in the ward, and rapidly regained strength.

"Whatever may be the termination of this case, regarded as one of a wound with complicated symptoms, there can be no question of the entire success of the operation of transfusion, and of its saving life and restoring the patient for a while at least, to the exercise of his ordinary functions. Transfusion was first practiced in the early part of the seventeenth century, although its use in England and on the continent generally dates from the middle of this century. The first operations were on animals, and the first instance of one being performed on man, if we except that described by Libarius, was in Paris, by Denys and Emmerez, in 1666.

"In the succeeding year their example was followed by Lower and King, in England. In these and other cases of subsequent date, the blood was taken from an animal—a sheep or calf—but grave objections to this course present themselves in the different character of the globules of the blood of animals from those of the human subject, and in latter times the transfusion is always from one to another of individuals of our own species. The profession is much indebted to Dr. Blundell, an eminent English accoucheur, for his ingenious researches concerning transfusion, and his improved method for its successful use. He showed in the result of cases of excessive exhaustion from loss of blood, occurring in his large obstetrical practice, and when life seemed about to ebb away, how it could be suddenly and completely rescued by transfusion. The New York Medical Record, of October 1st, contains an account, by Dr. Joseph Bascher, of a successful case of transfusion. The patient was a young German woman who had lost much blood by typhus fever. The fresh blood was taken from the arm of her husband."

AN EVENTFUL LIFE ENDED.—Mrs. Dora Ward died in this city, at the residence of her son in-law, Mr. Jacob Beier, in the evening at a quarter to 7 o'clock, October 22d, 1869, leaving 98 years, 5 months, and 27 days of life behind her. The life of Mrs. Ward, noted no less for its length of years than for its eventfulness, commenced on the 25th day of April, 1771, in the city of Hammel, in the Kingdom of Hanover.—She was married in 1700 to the late Conrad Ward, color sergeant in the Hanoverian Legion in the campaign of the British against Napoleon Bonaparte, and in the Danish wars. In 1828 her husband died of a sudden stroke of apoplexy, leaving her a widow with seven children. During their married life she had accompanied her husband to the wars in which the British were involved at that time, and was with him at the bombardment of Copenhagen by Lord Nelson; also, in Italy, Naples, Spain, Ireland, Sicily, Milan, Rome, and various other continental cities. What a book of history will moulder to dust in her coffin!

THE
MASON & HAMLIN ORGAN CO.
WINNERS OF THE
PARIS EXPOSITION MEDAL,
WHO HAVE UNIFORMLY BEEN AWARDED
HIGHEST HONORS
At Industrial Exhibitions in this COUNTRY,

SO that their work is the acknowledged standard of excellence in its department, respectfully announce that, with extended and perfected facilities, and by the exclusive use of recent improvements, they are now producing yet more perfect Organs than ever before, in great variety as to style and price, adapted to all public and private uses; for Drawing Rooms, Libraries, Music Rooms, Concert Halls, Lodges, Churches, Schools, &c., in plain and elegant cases, all of which they are enabled by their unequaled facilities for manufacture to sell at prices of inferior work.

The recent improvements in these Organs have so increased their usefulness and popularity that they are unquestionably the most desirable instruments obtainable for family use, as well as Churches, Schools, &c., while the prices at which they can be afforded ($50 to $1000 each) adapt them to the means and requirements of all classes. They are equally adapted to secular and sacred music, are elegant as furniture, occupy little space, are not liable to get out of order, (not requiring tuning once where a pianoforte is tuned twenty times), are very durable, and easy to learn to play upon.

The M. & H. Organ Co. are now selling FOUR OCTAVE ORGANS for $50 each; FIVE OCTAVE ORGANS, FIVE STOPS, with two sets of VIBRATORS for $125, and other styles at proportionate rates.

For testimony to the superiority of their Organs, the Mason & Ham in Organ Co respectfully refer to the musical profession generally; a majority of the most prominent musicians in the country, with many of eminence in Europe, having given public testimony that the Mason & Hamlin Organs excel all others.

A circular containing this testimony in full will be sent free to any one desiring it, also a descriptive circular, containing full particulars respecting these instruments, with correct drawings of the different styles and the lowest prices, which are fixed and invariable. Address

THE SENTINEL.

CITY AND STATE ITEMS.

MONDAY, NOVEMBER 15, 1869.

☞ THEO. N. RAMSAY, as Business Clerk, is authorized to make contracts and give receipts, &c., &c.

HUNG His own Dog.—When the State Proxy gravely announced in the Stockholders' meeting here on Thursday, that he was instructed by the Governor to vote against the lease, a Stockholder in the hall cried out, "What a sight! Gov. Holden ordering Badger to hang his own dog!"

FINE VEGETABLES.—The Local mak s his acknowledgements to Mr. Tighe, Gardener of the N. C. Insane Asylum, for some of the finest cabbages and turnips—flat Dutch and Rutabaga—that we have seen this season. They were not weighed, we cannot, therefore, describe them by weight, but the cabbages were about fifteen inches in diameter, the heads as hard as that of the recipient's; and the turnips measured about eight inches across—some of them.

MISHAP IN THE OUTSET.—As Representative Hayes, from Halifax, was about to leave Weldon for Raleigh, on Wednesday last, to be ready for his arduous legislative labors, a negro boy stole his bundles of cakes and candy from a seat in the car where they were deposited for convenient nibbling. The boy was caught, however, and sent back to Halifax jail, while Hayes came on to Raleigh, to the gathering of the "bands."

BOUND OVER.—Hoses J. Barker, Jackson Olive and Thomas Collins, residents of Wake, near the Chatham line, were before W. H. Harrison, Esq., Saturday last, on a warrant taken out by Dicy Johnson, charging them with assault and battery committed on her on the 20th October.—There were a number of witnesses for the defendants, to prove alibi, but none were examined. The complainant stated that about thirty of them came to her house, on the day stated, and whipped her, and otherwise mistreated her, among the number, she says, she recognized the persons above named, and two or three others living in Chatham.

His Honor, acting in the capacity of a Magistrate of the county, bound over the parties in a bond of $300 each, for their appearance at the next term of the Superior Court, and to keep the peace in the meantime towards all good citizens.

It may be said, this was a Ku Klux outrage; if it was, there are some good Republicans connected with the organization. We learn from a private source, that the conduct of the complainant has not been very exemplary in the neighborhood.

THE HORSE FAIR, on Wednesday and Thursday next, 17th and 18th inst., is much talked of, and is expected to be a grand affair.

Every arrangement has been made for the accommodation of visitors; police will be in attendance to preserve order; ushers in readiness to conduct ladies to seats, &c.

We learn that a number of trotting matches besides those heretofore announced, will come off during the two days of the Fair.

FORD'S COMEDIANS.—This Dramatic Company closed its first series of presentations in Raleigh, on Saturday evening, with a benefit to Mr. Sam. Ryan, who made himself a universal favorite during the sojourn of the Company in the city. Owing to the very unfavorable weather—cold and raining—the house on Saturday night was not so full as the friends of Mr. Ryan would have desired to see it. The audience, however, was a fair one, and the pieces announced for the evening very acceptably presented.

During the stay of the Company here, they have won the respect of our citizens by their modest, and correct deportment on the stage, and by their amiable social qualities in private circles.

We have found Mr. Ford a courteous gentleman and his success with the community here has shown him a good manager. Messrs Ryan, Crisp and Wood, and Misses Alexander, Eldridge and Hawthorne, are artistes of superior merit. They have certainly won many admirers in Raleigh.

They left at 10 o'clock yesterday, for Wilmington, by way of Weldon, where they appear at Thalian Hall next week. We commend them to our Wilmington friends, whom we congratulate upon the opportunity this company will offer them of enjoying a series of entertainments of high merit. And especially do we commend to their kindest offices, the talented and accomplished young actress of our own State who has made such a favorable impression on the public mind during her visit here.

PROMPT PAYMENT.—We are informed by Mr. Finch, the popular Agent of the Widows' and Orphans' Life Insurance Company, of New York, that Mr. James M. Perry, recently murdered in Chatham county, was insured in that Company for $4,000, and that the necessary arrangements have been made for the prompt payment of that sum to his widow. Actions speak, &c.

In consequence of the rain, the North Carolina Land Company only sold 6 lots Saturday, at the following prices:

Lot No. 8 to David R. Tillinghast for		$250
" " 43 " Thos. Owen	"	260
" " 24 " Chas. Beasley	"	185
" " 25 " Thos. Owen	"	135
" " 2 " Do.	"	215
" " 13 " Chas. Beasley	"	130

By reference to our advertising column it will be seen that the sale has been postponed until Saturday the 20th inst. when the remaining lots will be sold.

Self Advertised.—PHALON'S VITALIA OR SALVATION for the Hair carries with it its own best advertisement. As the light shines through the bottle you see that the liquid is clear as the azure of heaven. You smell it and find the odor agreeable. You apply it and it changes gray hair to any natural shade without soiling the scalp or producing headache. Nothing can be more harmless,

INVOCATION TO THE SPIRITS (OF THE GENERAL ASSEMBLY.)

Mysterious Agency!
Ye slaves and spirits of the mighty "Ring!"
Chosen in darkest caverns of the Lobgos—
Ye who did drink of Littlefield's free grog,
And subtler essences imbibed—ye men
Of carpet-bags, from east and west,
And from the frigid North—Appear!

[A pause.]

They come not yet.—Now by the voice of him
Who is the first among you—Joe, the Speaker,
Who left the legal shades of Buckingham,
(Left, but had not found the Judge's chairs,)
And that accessionist of Burke, "Mare Tod,"
Which, with the letters, D, I, E, makes "Toddie,"
Now toddle up! Arise, Appear! Appear!

[A pause.]

They come not yet.—Those sights of wisdom,
This magnitudinous multitude of mighty kin!
They come not at the bidding of the "Ring,"
Nor to the wooing voice of Tod and Joe,
Lords of the magic hammer. I'll try again.
By the soft blandishments, so dearly bought,
In "Holt's half-acre" and "Vinegar Hill;"
By the self voted seven dollars a day;
By the soft carpets and the easy chairs,
And bribes, enjoyed in the Commons Hall
And Senate Chamber; and, stronger still,
By the fact that Dave has got
The taxes in, and that the Treasury's full,
I say—Appear! Appear!!

Ah! here they come! I know that call,
That hint about the dollars, would prevail
A slender, single file of carpet-bags
Comes pouring in; and now to work,
And steal the balance that was left before!

THE LEGISLATURE, (so called) will meet to day, at noon. A considerable number of members have arrived, and it is probable there will be a quorum on the first calling of the roll in both Houses.

We shall have Reporters on hand, who will give a correct synopsis of the proceedings in each House, but there will be no reporting of long speeches, except those that may have sense and point to them.

We suppose there will be a number of vacancies created by resignation, as many of the members have accepted appointments to office under the United States.

BASE BALL.—The "Star" Base Ball Club, composed of youths of this city, sent its first Nine, consisting of C. Coley, G Jordan, W. Busbee. F. Heartt, A. Kreth, S. Coley, J. Busbee and F. Koester, to Graham on Saturday, to play for the Junior Champion Ball, with the Graham youth's Club. Though the weather was unpropitious, the match was played, the Raleigh "Stars" winning. The score stood, "Stars" 23; Grahams 17, played in nine innings. The following are the names of the Graham Nine engaged in the match: L. Overby, H. Heartt, B. Lacy, D. Martin, —— Nash, —— Norfleet, Wm. Stockard, A Nash and —— Hinton.

The "Stars" report that they were handsomely entertained by the Grahams, for which they tender their acknowledgement.

MASONIC.—Regular meeting of Hiram Lodge, No 40, this (Monday) evening, at the usual hour. All members requested to be punctually in attendance.

SALE OF CITY LOTS.—Our readers are requested to keep in mind the sale of city lots on Saturday, as advertised in our columns. As something has been said in regard to the title to this property, the following note is published, which will set the matter right on that point:

OFFICE OF N. C. LAND COMPANY,
Raleigh, November 10, 1869.

MR. EDITOR:—Please publish the following letter to remove all doubts and fears of those about to purchase homes in the New Town of Kingsland, as regards title:

RALEIGH, N. C., Nov. 9, 1869.

In order to quiet any apprehension which some persons may have, as to my claiming a Homestead on the property recently purchased by the North Carolina Land Company, from J. P. H. Ross, I can inform the public, that my petition for a Homestead does not embrace any part of said land, purchased by said Company, nor is it my intention to claim any part thereof as a Homestead exemption.

JOHN F. HUTCHINGS.

Test, QUENT BUSBEE.

There will be a grand tournament and ball on the 22rd of next month at Tarboro. From the programme published in the *Southerner*, we take it, that it will be a "big thing on ice."

TRIBUTE OF RESPECT.—At a meeting of the members of the Bar of Halifax Superior Court, on the 9th day of November, 1869, on motion, the Honorable B. F. Moore was called to the Chair, and John T. Gregory requested to act as Secretary.

Mr. Conigland arose, and in a few touching remarks announced the death of Col. W. A. Jenkins, and requested the Chairman to appoint a Committee of three to present to the meeting appropriate resolutions on the occasion; whereupon, the Chairman appointed Edward Conigland, J. B. Batchelor and Gen. M. W. Ransom.

The Committee, through Mr. Conigland, offered the following, to wit:

Whereas, It has pleased God to remove suddenly from among us Col. William A. Jenkins, late a member of the Bar; therefore, it is

Resolved, That the high position which the deceased had obtained at the Bar, in official station, and in the estimation of his fellow citizens, renders public notice of his death, on the part of his late associates, eminently fit and proper.

Resolved, That the ability, and the many noble traits of character which distinguished the deceased, must cause his death to be regarded as a public loss and especially to be lamented by his surviving brethren.

Resolved, That we extend our heartfelt sympathies to the family of our departed friend and brother in this sad hour of their desolation and bereavement, and in token of our respect for his memory, will wear crape on the left arm for thirty days.

Resolved, That the Chairman of this meeting be requested to present these resolutions to the Court, and to ask that they be entered on the minutes, and also to cause the same to be published and communicated to the family of the deceased.

Which resolutions were unanimously adopted. B. F. MOORE, Chairman.

JOHN T. GREGORY, Secretary.

Upon the assembling of the Court, Mr. Moore in a few feeling remarks, presented the resolutions of the Bar to the Court with the request that they be enrolled on the minutes of the Court.

General Ransom made touching remarks about the deceased; which were listened to with silent attention. His Honor replied in a most appropriate manner to Mr. Moore and Gen. Ransom, and ordered the proceedings to be spread on the records of the Court.

A Clergyman, while residing in South America as a missionary, discovered a safe and simple remedy for the cure of Nervous Weakness, Early Decay, Diseases of the Urinary and Seminal Organs, and the whole train of disorders brought on by baneful and vicious habits. Great numbers have been cured by this noble remedy. Prompted by a desire to benefit the afflicted and unfortunate, I will send the recipe for preparing and using this medicine, in a sealed envelope, to any one who needs it, *Free of Charge*.

SCHOOL BOOKS.

UNIFORM SYSTEM OF

TEXT-BOOKS

FOR NORTH CAROLINA.

Office Publishers' Sup't of Introduction,
RALEIGH, N. C., Sept. 21, 1869.

A DEPOSITORY has been established at Raleigh, in charge of M. J. Alfred Williams, for the following books, which were adopted Aug. 7th, 1869, by the State Board of North Carolina for uniformness in the Public Schools:
Parker & Watson's National Primer,
Parker & Watson's National Speller,
Parker & Watson's National Readers,
Davies' Arithmetics,
Monteith & McNally's Geographies,
Monteith's Youth's History of the U. S.
Reed's System of Penmanship.

The New Descriptive Geography of North Carolina will be ready about the middle of October, 1869. The maps, &c., are now being engraved as rapidly as possible. This work will be furnished with Monteith & McNally's Series, without extra charge.

Prof. Joseph Alden's Complete System of Map Drawing will also be furnished to the Public schools with Monteith & McNally's Series, without extra charge.

The books will be supplied at exceedingly low rates to the Public Schools in the State.

Similar terms will be made accessible to private schools adopting the above named books uniformly.

Pupils attending the Public Schools will, in accordance with the state contract, be furnished with new copies of Monteith & McNally's Geographies and Davies' Arithmetics in exchange for old copies of Cornell's Geographies and Quackenbos' Arithmetics, which they may possess.

Books will be supplied, carefully packed and shipped, by
ALFRED WILLIAMS,
Depositary, Raleigh, N. C.

Teachers and Educationists generally are respectfully invited to correspond with
C. W. LAMBETH,
Agent for the Publishers
and Sup't of Introduction.

From Dr. Wm. B. Harrell, Prin. High School, Snow Hill, N. C.:
Snow Hill, N. C.
"I am much pleased with both the Spellers and all the Readers; and, as to the series of Geographies by Monteith & McNally, I have long need no other when these could be obtained.

From Rev. Aldert Smedes, D. D., Rector of St. Mary's School, Raleigh, N. C.
Raleigh, N. C.
I have examined the Geographies—Monteith's [No. 4] and McNally's [No. 5] and find everything in both, which eminently entitles them to a wide circulation. It is my purpose to introduce Monteith's [No. 4] into my school. I give it the preference for the information which it gives on the subject of Physical Geography. The maps and questions in both works seem to me to be admirable.
ALDERT SMEDES.

From J. W. Gulick, A. M., Prin. Male Academy, Goldsboro', N. C.:
Goldsboro', N. C.
I find your books are in use in many Schools in this section. The teachers speak in the highest terms of your Readers and Geographies, and of Peck's Gamut in particular.
J. W. GULICK.

From Col. Wm. Bingham, Prin. Bingham School, S. C.
The introduction of so much valuable matter on the subjects of Physical Geography and Geology, and in a form so simple and intelligible, makes it (Monteith's Intermediate Geography) in my judgment, a charming school book.
"We shall introduce Davies' Bourdon, perhaps others of your books."

From Dr. Closs, Prin. Durham Academy, N. C.:
DURHAM, N. C.
I design introducing the present session McNally's Geography and Davies' University Arithmetic; also Boyd's Elements of English Composition.
M. CLOSS.

From M. L. Little, Esq., Prin. Pleasant Hill Seminary, Newton, N. C.
NEWTON N. C.
Will introduce the University Arithmetic next term. Have examined it with much satisfaction. An admirable work.
M. L. LITTLE,
Prin. Pleasant Hill Seminary.

From Rev. S. Ivey, Prin Auburn Academy N. C.:
AUBURN, N. C.
Monteith's Geographies are excellent works, and I shall introduce them into my school.
STINCLON IVEY.

Prof. Wm. A. Obenchain, writing from Hillsboro' Military Academy says:
The superior and durable style of binding of your works is a very great recommendation—one with which I have long been favorably impressed.

From J. E. Duncan, Esq., Prin. Male Academy, Warrenton, N. C.
WARRENTON N. C.
"Davies' Mathematics" was adopted by me in 1858, and, up to this time, I have examined no works superior to them as a whole.
I have examined, with a view of introduction, "McNally's Geography" [No. 5] and "Peck's Gamut's Natural Philosophy." I consider them most excellent works, and shall put them in my boys' hands, at the earliest period. The Philosophy is truly an enticing work and must meet with universal commendation.
J. E. DUGGER.

From W. C. Kerr, State Geologist of N. C.
I regard Monteith's Physical and Intermediate Geography as one of the best books of its kind. It presents points of superiority over most primary Geographies; not the least of which, especially in the eyes of the juveniles, will be found in its attractive and very graphic illustrations. Another is the truly wonderful amount of substantial and really scientific information conveyed by these wood cuts, and the concise and lucid descriptions appended. But the chief excellence consists in this, that Geography is here treated from the only true and rational standpoint, viz.: of Geology and Physical Geography; so that the learner arrives, by a natural and easy process, at the true conception of the earth as an organized whole; the designed result of successive changes and modifications, under the control of physical laws, constituting a true growth from a chaotic germ through manifold stages of progress, all pointing forward to its destined end as the home of living beings, and dwelling with them.
From Rev. G. D. Bernheim, Principal of Mount Amoena Female Seminary, Mount Pleasant, N. C.:
Mt. Pleasant, N. C.
I have introduced your National Series of Readers with great satisfaction to myself and to our teachers. We find them to be excellent, just suited to our purposes.
With Davies' Mathematical Series we have been long familiar, and can find no good reason for changing them.
In the Primary Department we have Monteith's Geographies, and in the advanced classes we have introduced Peck's Gamut, with much acceptance.
G. D. BERNHEIM.

From Prof. Jos. H. Fox, President Stantonsburg Scientific High School, N. C.
WILSON, N. C.
I have carefully examined the claims of the different Series of School Books most prominent before the public at this time. I have tested the merits of many of them in the school and lecture room, and feel no hesitancy in pronouncing the "National Series of Readers and Spellers" the best with which I am acquainted. I shall henceforth use no others in my school, and I shall furthermore use my influence to secure their adoption into other Seminaries in this section.
I use Davies' Mathematical Series in my school. I consider his works incomparably superior in many particulars, even to Stoddard's Course, which is saying a great deal. In fact, I consider it the highest encomium in my power to bestow.
I use Monteith's Series in my school. They afford a gradual but thorough and systematic progression, from the simplest rudiments of science, up to a development sufficiently exhaustive for all ordinary educational purposes. Their very superior merit has led me to discard ——, which stands next best on the list.
McNally's, the 5th book of the course, is decidedly the *chef d'oeuvre* of Geographies. No competent instructor can examine it for an hour without being struck with its extraordinary merit.
J. H. FOX.

From the Statesville, N. C. *American*, February 25th, 1869.
We would call the attention of Teachers in Western North Carolina to the valuable School publications of this firm, which are equal to any in the Union.
Messrs. Barnes & Co., of New York, are now issuing large editions of these Standard School Books for the Southern states. The series consists of the National Primer, or Word Builder, National Elementary Speller. The National First 2nd 3rd, 4th and 5th Readers. This firm will allow no competition in the price of books published by them, which are among the best in the States.
From the Raleigh *Daily Progress*, Feb. 26, 1869.
National Second Reader.—We have before examined a volume of its class which we could commend more cordially to parents and teachers.
From the N. C. *Presbyterian*, March 7, 1868.
National First Reader.—We recommend it to all who desire a valuable book of instruction for beginners.
From the Wilmington, N. C. *Daily Herald*, 1866
The National series has attained probably a higher reputation than any other complete series of School Books now in existence.

THE UTLEY

COTTON PRESS.

A NEW distribution of power, whereby all friction is overcome. The simplicity, economy and durability of this PRESS astonishes all who see it, and the more so that a power so simple should so long have been unappropriated. With this Press, two men can do all the packing or pressing of a 500 pound bale inside of eight minutes; and it can be readily taken down and transported, as it is simple and light. We can supply these Presses cheaper than any yet offered to the Planter. Will send circulars to any desiring, and we would advise all persons wanting presses to withhold buying until they examine this.

THE PRESSES are now being manufactured at the SASH AND BLIND FACTORY OF THOS. H. BRIGGS. All are assured that as between this and any other there is no argument as to its merits over all others. With the irons, any ordinary workman can put them up. The patentee is here for a few days, and will take pleasure in explaining its merits.

AND CONSTANTLY INCREASING.

ALL POLICIES (AFTER TWO FULL PAYMENTS) NON-FORFEITABLE, AND SO EXPRESSED ON EACH POLICY.

No Restrictions as to Residence and Travel in the United States.

RATES LOWER THAN ANY OTHER COMPANY THAT PAYS DIVIDENDS TO POLICY-HOLDERS.

IT ISSUES ALL THE VARIOUS FORMS OF LIFE AND ENDOWMENT POLICIES.

LOSSES PAID PROMPTLY IN CASH.

LIST OF LOSSES ACTUALLY PAID BY THE ÆTNA LIFE INS. CO., AT THE BRANCH OFFICE, IN RALEIGH, BY THE HANDS OF W. H. CROW, GENERAL MANAGER OF THE STATE AND PART OF VA.

"	22,304	15,00

And $5,000 ready to pay a loss of No. 34,161, so soon as the party authorized to receive the money appears.
The Company has been well tested throughout the State, as to its promptness in paying her losses, reliability, &c.

DIVIDENDS PAID AT THE END OF THE FIRST YEAR, AND ANNUALLY THEREAFTER.

Its ratio of expense to income is extremely low. This may be seen by reference to the Official Reports for 1868. For example:

EXPENSE ON THE $100 RECEIVED.

Knickerbocker,	$16,54
Equitable,	17,44
North America,	21,18
Brooklyn,	21,09
Universal,	27,24
John Hancock,	18,27
The National,	63,48
The Ætna,	13,41

It has an IMPORTANT NEW FEATURE that has been copy-righted. According to this plan the rates are MUCH LOWER than in any other Company in the world.
Its ratio of Mortality is low. Its rates are very low. Its expenses are very low. Its dividends are large.
It insured more lives in the City of New York in 1868, than any other Company, save one. It issued more Policies in the United States than any other save one. It insured more lives in Canada than any other Company, British or American.
See what the HIGHEST INSURANCE AUTHORITY in this country says. In the June number of the *Insurance Times*, of New York, the following opinion was expressed:

"If there is any great benefit in mutual association, any great advantage to be derived from scientific organization and a chartered source, tending to mitigate the sufferings, lessen the privations, and add to the peace, security, and happiness of humanity, we are prepared to show that these blessings flow, in all their fullness and purity, from this excellent, powerful, and flourishing Company, the ÆTNA LIFE, of Hartford."

"No institution has brought more prompt, full, and grateful relief to the hearths of the bereaved and desolate, and none has been more uniformly distinguished for the enterprise, wisdom, and equitable liberality with which it has fulfilled the purposes of its formation."

"Its success has been almost unbounded and beyond all precedent. Eight years ago, in 1861, it issued only 680 policies, received an income of seventy-eight thousand dollars, and possessed assets amounting up to something over two hundred and eighty-one thousand dollars; but this year, 1869, it granted 13,387 new policies more than any other Company except the Mutual Life; received an income exceeding six million dollars and half assumed risks, securely and profitably invested, assets amounting to over Ten Million Three Hundred and Fifty Thousand Dollars. And this wonderful ratio of growth has been sustained in 1869."
